FREE TO USE

You can *build this.*

Every Tendu Studio cover fits a base you can make in an afternoon, from hardware-store materials. Make the base once, then change the look every event.

01 Square column · 36 × 36 × 150 cm

02 Round column · Ø 40 × 150 cm

03 Large lampshade · Ø 80 × 40 cm

04 Centerpiece · Ø 30 × 28 cm

05 Display wall · 500 × 250 cm

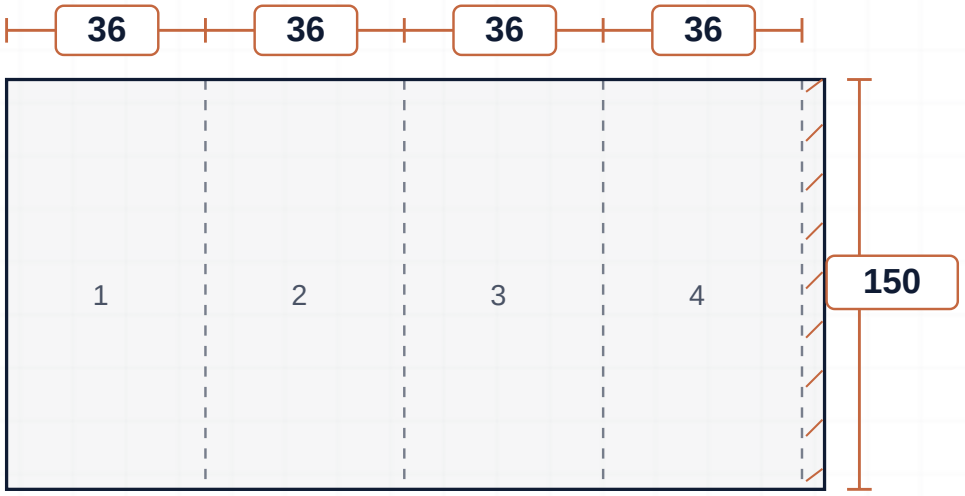

The frame is a one-time build. The cover is the look.

01

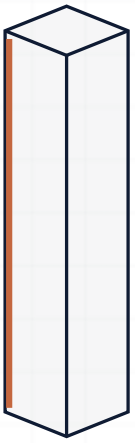

HONEYCOMB BOARD · NO TOOLS BUT A KNIFE

Square *column*

For a 36 × 36 × 150 cm cover

Board 148 × 150 cm · dashed = V-groove fold · hatched = 4 cm Velcro flap

Folded

YOU NEED

- ○ One honeycomb board, at least 148 × 150 cm
- ○ Adhesive Velcro, 150 cm
- ○ Ruler, pencil and a sharp knife
- ○ Optional lid: 36 × 36 cm board
- ○ Optional: battery LED lantern inside

STEPS

01 Mark fold lines on the back every 36 cm, leaving a 4 cm flap.

02 Cut a V-groove along each line, through the core but not the front paper.

03 Fold into a box along the grooves.

04 Close it with Velcro on the flap, top to bottom.

05 Slide the Tendu Studio cover on from the top.

COVER · 36 × 36 × 150 CM

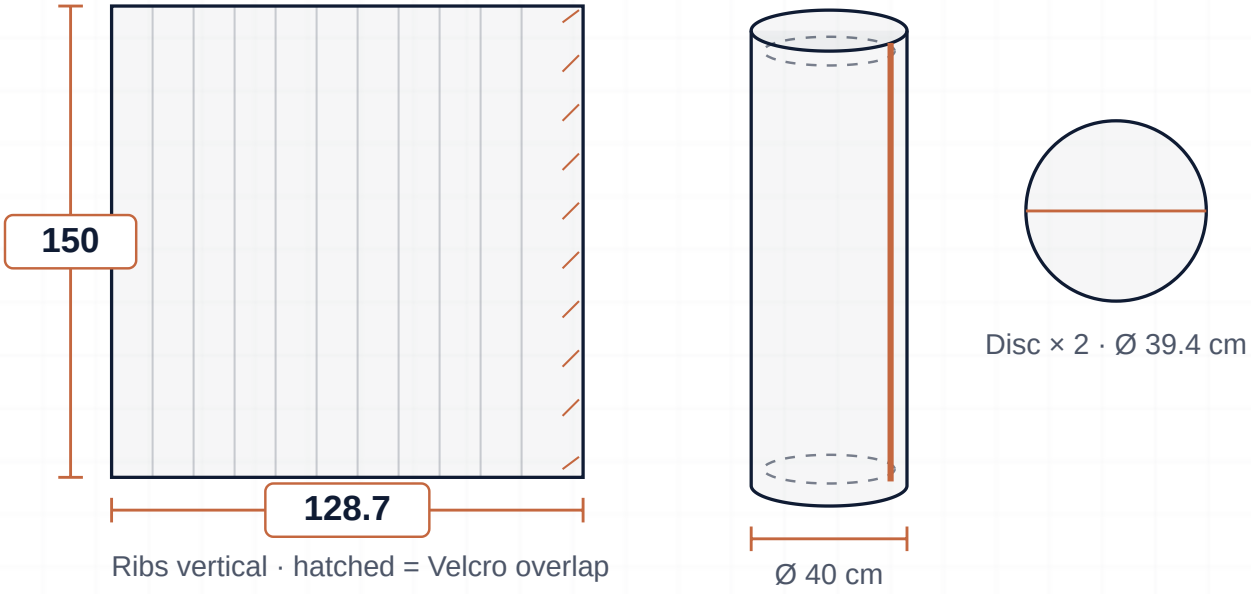

Light it safely. Battery or rechargeable LED lights only. Never mains wiring inside a cover or frame.

02

CORRUGATED PLASTIC · GLOWS WITH AN LED

Round *column*

For a Ø 40 × 150 cm cover

YOU NEED

- Corrugated plastic sheet, 128.7 × 150 cm (white or opal glows best)
- 2 discs of board, Ø 39.4 cm
- Adhesive Velcro, 150 cm, and strong tape
- Optional: battery LED lantern or strip

STEPS

01 Cut the sheet with the ribs running up and down.

02 Stick Velcro along the overlap edge, full height.

03 Roll it into a tube and close the Velcro.

04 Push a disc into the top and bottom, then tape.

05 Light it from inside if you like, and slide the cover on.

COVER · Ø 40 × 150 CM

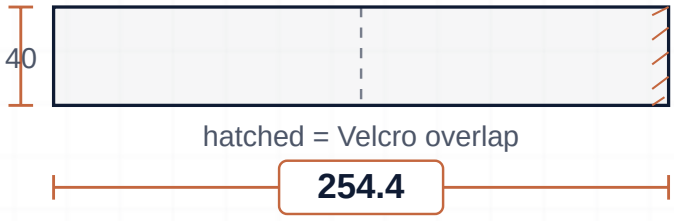

Light it safely. Battery or rechargeable LED lights only. Never mains wiring inside a cover or frame.

03

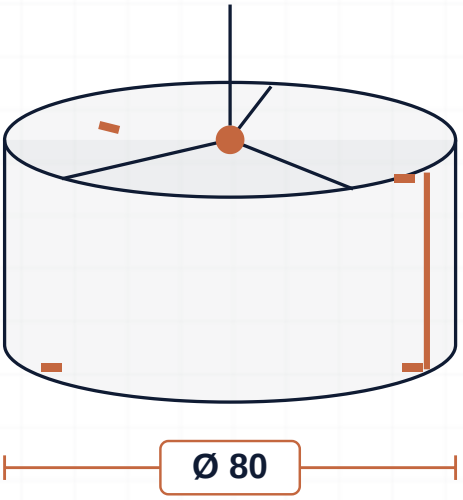

RING KIT + YOUR OWN SHEET

Large *lampshade*

For an Ø 80 × 40 cm drum cover · flat-packs into a slim box

PP sheet strip, flat
Length = Ø × π + 3 cm Velcro overlap

Rings in 4 arcs each · 3 spokes · centre discs

YOU NEED

- Tendu Studio ring kit, Ø 80 cm: ring arcs, 3 spokes, centre discs, clips
- Translucent PP sheet, 0.5–0.8 mm, 254.4 × 40 cm (from a plastics or hardware store)
- Adhesive Velcro, 40 cm, for a seamless closing
- A battery LED bulb or puck light
- A ceiling hook and cord

STEPS

01 Join the arcs into two rings with the sleeves.

02 Clip the 3 spokes to the top ring and lock them between the centre discs.

03 Cut the sheet to 254.4 × 40 cm and stick Velcro along the overlap edge, full height.

04 Wrap the sheet around both rings, close the Velcro, and clip it every 20–25 cm.

05 Pull the cover over, add the LED and hang it.

RING KIT · COMING SOON

COVER · Ø 80 × 40 CM · ALSO Ø 60

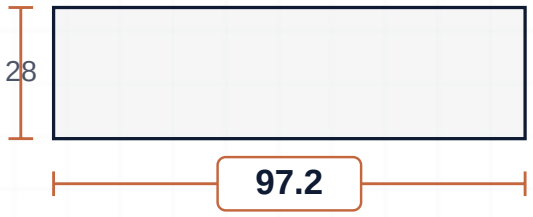

Light it safely. Battery or rechargeable LED lights only. Never mains wiring inside a cover or frame.

04

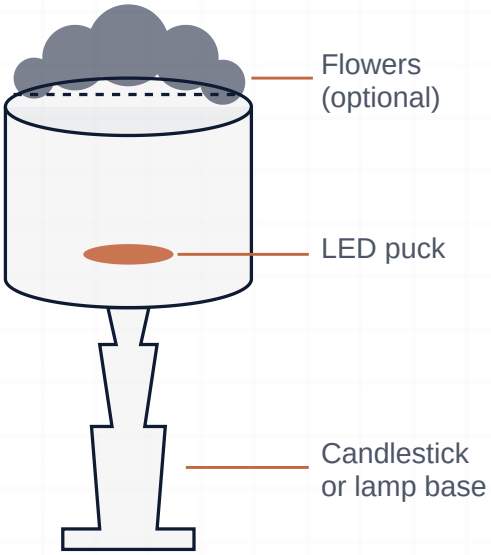

TABLE CENTREPIECE · SHADE + BASE

The *centerpiece*

For an Ø 30 × 28 cm shade cover on a candlestick or lamp base

PP sheet strip, flat
2 rings Ø 30 cm (embroidery hoops work)

YOU NEED

- Translucent PP sheet, 97.2 × 28 cm
- Adhesive Velcro, 28 cm
- 2 rings, Ø 30 cm: embroidery hoops (inner ring) or the kit rings
- A board disc, Ø 29.5 cm, with a hole for the base
- A candlestick or lamp base, and a battery LED puck light
- Optional: floral foam and stems for the top

COVER · Ø 30 × 28 CM

STEPS

01 Stick Velcro on the overlap, wrap the sheet around both rings and close it.

02 Fit the disc on top of the base, then set the LED puck on the disc.

03 Lower the shade over it so the bottom ring rests on the disc.

04 Pull the Tendu Studio cover over the shade.

05 Top it with flowers on a second disc if you like.

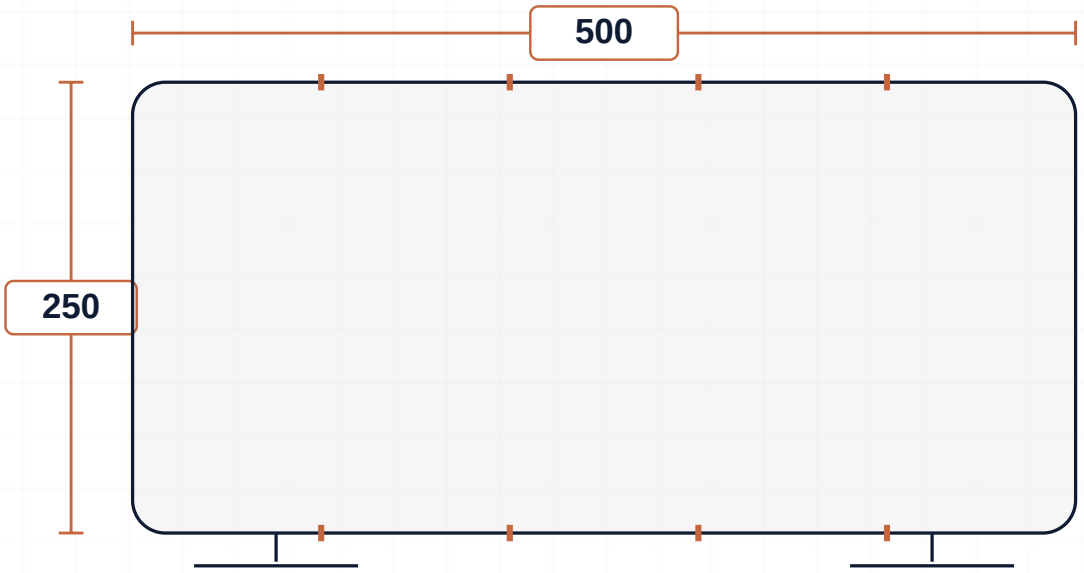

Light it safely. Battery or rechargeable LED lights only. Never mains wiring inside a cover or frame.

05

READY-MADE FRAME · NO TOOLS

Display *wall*

For a 500 × 250 cm tension-fabric cover, single or double-sided

Tube joints marked in terracotta · feet front and back

YOU NEED

- A ready-made aluminium tension frame, 500 × 250 cm
- 2 feet (usually included)
- The Tendu Studio pillowcase cover in the same size
- No tools

STEPS

01 Lay the tubes out by their numbered stickers.

02 Push them together into the outer frame.

03 Fit the feet to the bottom tube.

04 Pull the cover over the frame like a pillowcase.

05 Stand it up and zip the cover closed at the bottom.

COVER · 500 × 250 CM

Light it safely. Battery or rechargeable LED lights only. Never mains wiring inside a cover or frame.
